Phoebe and Her Unicorn books in order (all 24)

All 24 Phoebe and Her Unicorn books in order, 2014 to Across Enchanted Lands in October 2026, where the newest days come from, and why some lists number them differently.

There are 24 Phoebe and Her Unicorn books by Dana Simpson, from Phoebe and Her Unicorn (2014) to Across Enchanted Lands (6 October 2026). As of 30 October 2026, all 24 are out. The days for the two newest come from retailers, not from the publisher, Andrews McMeel. Peabody's Phoebe and Her Unicorn page has all 24 as a checklist that prints as a reading log.

Phoebe is a girl who becomes friends with a vain, witty unicorn. The two trade jokes about school, fame and fashion. The books collect the comic strip, which runs in newspapers: mostly short strips, with a few longer stories, and a joke every few lines.

The titles, order and years come from Bookroo's series page, which numbers them the way the publisher's listings do: Unicornado is volume 16 and Unicorn Secrets is volume 23. We opened everything on 30 October 2026.

Where the newest days come from

Andrews McMeel's own site would not load for us, so we couldn't check either new day with the publisher. Book 23's day, 10 February 2026, comes from Bookroo. Book 24's day, 6 October 2026, comes from retailer listings that agree with each other, except one German retailer that says about 5 November. If your bookshop doesn't have Across Enchanted Lands yet, that may be why.

Why some lists number them differently

Wikipedia's list of the books includes a 2018 board book, Today I'll Be a Unicorn, among the collections. That pushes its numbers one ahead after 2017, so a book we call 10 is 11 there. We follow the numbering on the publisher's listings, which leaves the board book out. If a list doesn't match ours, check by title.

Does the order matter?

A little. Book 1 sets up how Phoebe met her unicorn, so start there if you can. The collections follow the strip as it goes, so the jokes about friends and school build over time. Most pages are separate gags, though, so a child who grabs book 12 first won't be lost.

What age Phoebe and Her Unicorn is for

We put the series at 8 to 12, and that is Peabody's own estimate. Bookroo shows between 7 and 12 on most of the books and 10 to 12 on the newest two, but it is a seller, not the publisher, and the publisher's site didn't open.

An age is a guess at who will enjoy a book, not a reading level. The strips use wordplay and gentle science and philosophy jokes, so a child who likes to read between the lines gets the most from them. The series page tells grown-ups what to expect: friction with a rival classmate, family scenes, goblins and a dragon. Some later books touch on heavier feelings, such as worry and identity, so look at the newest ones first if your reader is on the younger side. We don't print reading-level scores: they belong to the companies that make them.

What isn't in the 24

- Today I'll Be a Unicorn is the 2018 board book for the youngest readers.
- Heavenly Nostrils is the webcomic where the strip began in 2012, before it took its current name and moved to newspapers in 2015, per Wikipedia.

Neither is on the checklist.

The reading log and what comes next

On the Phoebe page, tap each book your child has read and it says which is next. With 24 books, that helps. The ticks stay on your device; nothing is sent to us. Print it for one page with every title and a box beside each. My Shelf prints every series your child reads on one page.

When they're caught up, Hilda is gentle and funny with trolls and spirits, Babymouse has school jokes and a big imagination, and Cleopatra in Space is faster, with friends and a long adventure.

Questions grown-ups ask

How many Phoebe and Her Unicorn books are there?

24, all out as of 30 October 2026. The newest, Across Enchanted Lands, came out on 6 October 2026, per retailer listings.

What is the newest Phoebe and Her Unicorn book?

Across Enchanted Lands, book 24. Before it came Unicorn Secrets, book 23, on 10 February 2026. Both days come from sellers; the publisher's site didn't open for us.

Do Phoebe and Her Unicorn books need to be read in order?

No, but book 1 is the best start, because it shows how Phoebe and the unicorn met. After that most pages are stand-alone jokes.

Peabody (peabody.kids) is free through the end of 2026. Every series on the book series hub has its books in order with a checklist kept on your device, and our library has stories for every reader.
