Using them

Print the flashcards for one topic, cut them up and play matching on the floor. Print a coloring page and name each thing as the child colors it. Use the worksheets after the matching story. Paper size follows your country, so the sheets print on A4 or Letter without cutting off the edges.

Picture word cards on paper

The flashcard maker takes any of the 22 topics, from animals to feelings, and lays out as many cards a page as you choose, with Spanish on the back if you want it. See the topics on screen first to decide which to print. Everything here is free, with no ads, no sign-up and nothing to download. Nothing about your child is sent anywhere.
