Math games for kids, from counting to division

Peabody · checked 2026-10-18

Peabody has 11 free math games for kids, from counting and making ten to adding, subtracting, times tables and division. Each game asks its questions as three big boxes to tap, with no typing, and the questions follow the grade a child picks. Free through the end of 2027, with no sign-up and no ads.

- Game: Rocket Number Blast · Asks: counting, making ten, adding, taking away, times tables, division · Grades: K to 5th · What it is: Zap the alien ships with the right answer.
- Game: Pet Hatch · Asks: making ten, adding, taking away, times tables, division · Grades: Pre-K to 5th · What it is: Hatch eggs, care for and breed pets, and ride them through nine 3D worlds.
- Game: Build World · Asks: counting, making ten, adding, taking away, times tables, division · Grades: K to 5th · What it is: Build your own world, block by block. Fly, swim, and find the glowing Wonder blocks.
- Game: Kraken Falls Waterpark · Asks: counting, making ten, adding, taking away, times tables, division · Grades: Pre-K to 5th · What it is: Tube down the slides, beat Bruno the walrus, and ride the right chute for the express drop!
- Game: Build A Park · Asks: counting, making ten, adding, taking away, times tables, division · Grades: Pre-K to 8th · What it is: Pick a park to build: a hot springs waterpark or a ski resort, from one small hill to a mountain of lifts!
- Game: Galaxy Girl · Asks: counting, making ten, adding, taking away, times tables, division · Grades: K to 5th · What it is: Jazz, 13, explores 3D caves on the Moon, Mars, Europa and Titan: blast rock, swim, glide and find four Star Cells!
- Game: Astro Rescue · Asks: counting, making ten, adding, taking away, times tables, division · Grades: K to 5th · What it is: Jump through space and free the lost bots.
- Game: Wake the Dragon · Asks: counting, making ten, adding, taking away, times tables, division · Grades: Pre-K to 5th · What it is: Tiptoe past a sleeping dragon, take its gold, and rescue the lady in the tower.
- Game: Sneaky School · Asks: counting, making ten, adding, taking away, times tables, division · Grades: Pre-K to 5th · What it is: Sneak out of school: find letters, finish words, win your lunch.
- Game: Infection Explorer · Asks: counting, making ten, adding, taking away, times tables, division · Grades: K to 5th · What it is: Pick a world: cure the zombies on the island, or drive and ride around Ride Town!
- Game: Clank Attack! · Asks: counting, making ten, adding, taking away, times tables, division · Grades: K to 5th · What it is: Build a maze of towers. Hold back the Clankers!

A few games for older kids are left off this list. The rest are in the arcade. A game's "From"

grade is where it is made to start; its questions follow the grade a child says they are in.

Which grades work on math

The practice brain works on math for Pre-K, Kindergarten, 1st grade, 2nd grade, 3rd grade, 4th grade, 5th grade, 6th grade, 7th grade and 8th grade. It starts a child on the rung their grade puts them on, then moves up when answers are solid, so a child ahead of their grade is not held back.

Math games by skill

- Skill: Counting games for kids · Games that ask it: 11 · What it covers: counting and making ten
- Skill: Addition and subtraction games for kids · Games that ask it: 11 · What it covers: adding and taking away
- Skill: Multiplication games for kids · Games that ask it: 11 · What it covers: times tables and division
- Skill: Number line and skip-counting games for kids · Games that ask it: 2 · What it covers: number sense
- Skill: Fraction and decimal games for kids · Games that ask it: 11 · What it covers: fractions and decimals
- Skill: Negative numbers and algebra games for kids · Games that ask it: 11 · What it covers: negatives and algebra

Math games by grade

- Grade: Pre-K · Games and practice: Pre-K math games and practice
- Grade: Kindergarten · Games and practice: Kindergarten math games and practice
- Grade: 1st grade · Games and practice: 1st grade math games and practice

- Vocabulary games for kids

Questions parents ask

Do these games need typing?

No. Every answer is one of three big boxes, so a child who cannot type or read well yet can play, and a wrong answer costs a little time, never a life.

Do they ask the same questions every time?

No. Questions come from the same practice brain behind the lessons, which brings math back on a schedule and does not ask again what was answered right.

Is it free?

Yes, free through the end of 2027, with no sign-up. The games teach and review; Peabody is not a full curriculum and never scores a child against other children.
